PROFESSIONAL EXPERIENCE

Action Button Media | GoHighLevel Specialist / CRM Automation Builder

March 2025 to July 2026

- Built and managed GoHighLevel CRM systems including pipelines, custom fields, tags, workflows, forms, surveys, calendars, funnels, and automated email and SMS follow up.
- Created end to end automation for lead capture, qualification, appointment booking, pipeline updates, internal notifications, customer follow up, and reporting.
- Connected website and campaign leads directly into GoHighLevel and tested triggers, workflow enrollment, opportunity movement, calendars, messaging, and complete customer journeys before launch.
- Built and maintained websites and landing pages using GoHighLevel, Wix, and WordPress while supporting client communication, QA, documentation, and ongoing account troubleshooting.

ProspectBoss | GoHighLevel Expert

May 2024 to February 2025

- Built workflows, pipelines, funnels, forms, calendars, and automated SMS and email sequences to improve lead management, follow up, and conversion.
- Supported digital marketing and social media campaigns while connecting lead generation activities with CRM processes and automated follow up.

Autoparts | Google Ads and GoHighLevel Expert

January 2021 to February 2023

- Managed and optimized Google Ads PPC campaigns for automotive service businesses and other local businesses across the United States.
- Built GoHighLevel landing pages, connected ad and website leads into CRM pipelines, and automated lead follow up using CRM and AI assisted processes.

SELECTED GOHIGHLEVEL PROJECT HIGHLIGHTS

- Designed a multi location property services CRM covering lead capture, validation, scoring, qualification, branch routing, sales assignment, booking, sales pipeline management, customer onboarding, reviews, reactivation, and reporting.
- Mapped custom coded website data into GoHighLevel custom fields and workflows so service requests, property details, ZIP information, qualification data, and booking actions could trigger CRM automation.
- Built lead scoring, ZIP based territory routing, round robin sales assignment, speed to lead follow up, escalation logic, and manual review paths for exceptions.
- Configured appointment confirmation, reminders, cancellations, no show recovery, review requests, onboarding, Meta lead mapping, Google Ads tracking, Stripe related workflows, Twilio, and A2P 10DLC support.

EDUCATION

Caraga State University | Bachelor of Science in Biology | 2015 to 2019
